# Braddock Hammered Truss

288" Width

## Dimension Sheet

### Specifications

Pitch:	10/12
A) Rafter/Top Cord:	6" x 6"
B) Bottom/Tie Cord:	N/A
C) Upper/Tie Cord:	N/A
D) King Post:	6" x 6"
E) Queen Post:	6" x 6"
F) Jack Post:	N/A
G) Hammer Beam Top:	N/A
H) Hammer Beam Btm:	6" x 6"
I) Collar Brace Upper:	N/A
J) Collar Brace Lower:	N/A
K) Hammer Brace:	N/A
L) Wall Post:	6" x 6"
M) Web 1:	6" x 6"
N) Web 2:	N/A
O) Web 3:	N/A
P) Flying Buttress:	6" x 6"
Q) Newel End:	XC

## Braddock Truss Recommended Interior Installation Procedures

**A:** Layout beams on ceiling and chalk lines to the inside of rafter beam.

**B:** Measure down ridge and screw in threaded eye bolts into structural blocking at all points.

**C:** Place KD nailing strip on chalk line and pre-drill  $\frac{1}{8}$ " holes 24" on center through strip and into drywall. Install drywall anchors into predrilled holes. Apply  $\frac{1}{4}$ " bead of PL adhesive to top of nailing strip and install using deck screws.

**D:** Measure, cut and dry fit rafter beam then pull beam down. Apply PL adhesive to sides of nailing strips. Install rafter beam and use finish screws to secure 24" on center.

**E:** Cut 3"-4" diameter round hole for king/queen post turnbuckles.

**F:** Measure correct length and cut braided cable and install turnbuckle kit. Glue and screw off  $\frac{3}{4}$ " screw plate to inside of king and queen post for connection of hammer beam, web and flying buttress. Stain raw foam on king/queen post and loose side. Install king/queen posts and their 4th side.

**G:** Glue and screw 2x blocks for hammer beam and flying buttress. Measure and cut parts. Dry fit first. Apply PL adhesive to contact areas. Install using trim screws.

**H:** Measure, cut and dry fit web beam. Glue and toe screw in place. Patch holes and touch up HDF if necessary.
